

# Special Tactical Services, LLC

## Tactical Rifle/Carbine

Our Tactical Rifle/Carbine Courses are designed to develop the necessary skills to safely and effectively employ the rifle/carbine in a tactical environment. Students will undergo an intense training curriculum that will increase their speed, decision making skills, and confidence with the rifle/carbine. These objective based programs will apply the techniques and tactics that have proven to be successful in high threat environments.

### Training Objectives:

- Rifle/Carbine safety, characteristics, accessories
- Disassembly / assembly & function check
- Maintenance / cleaning & lubrication
- Operation & handling
- Cycle of operation
- Fundamentals of marksmanship
- Zeroing procedures
- Single target engagement
- Multiple target engagement
- Shot progression
- Recoil management
- Sight management
- Administrative, tactical, & speed reloads
- Malfunctions & stoppages
- Immediate & remedial actions
- Transitions
- Facing movements
- Adverse shooting positions
- Use of barricades (cover & concealment)
- Shooting on the move
- Engaging moving targets
- Training from “behind the power curve”
